

NUVIEW SYSTEMS INC

Mary White, Senior Vice President of HR, is traveling to a conference for the week. Things are hopping back at the office. Several salary changes for key performers need approval, a requisition to fill a Director position needs to move forward, and Mary's secretary needs approval to go on FMLA to take care of a sick parent. All of these tasks need her attention in order to move forward, and they can't wait!

THE NUVIEW SOLUTION • Issues like these would normally be put on the backburner until Mary returned to the office. With NuViewHR's mobile capability, Mary can easily review, and approve or deny items right from her cell phone. Keeping these critical tasks moving forward, regardless of where her travels take her is a huge plus. NuViewHR understands busy work schedules. Our accessibility via web browser, and now with mobile approval capabilities, means you can continue to complete tasks even after leaving the office.

SIMPLE AND EASY • No longer will employees hear "it will have to wait." Managers can review and approve their specific to-do's from a cell phone, whether they are at home, at the airport, or in a taxi. Leveraging the power of cell phone technology to browse the web, managers can log in to NuViewHR and with a few keys they can either approve or deny a request. It's that simple!

HIGHLIGHTS
