

***NuView Reaches Out to Customer Base in Tough Economic Times  
Plans Webinar to Help Them Make Better Strategic Decisions***

With the unemployment rate currently at 7.2% and expected to climb to 8.9 % by late summer, organizations are undoubtedly downsizing. To better help its customers during this tough economic time, NuView Systems will host a ***Strategic Business Decisions Webinar*** on Tuesday, February 17th that will focus on utilizing NuViewHR to make informed Reduction in Force (RIF) decisions using its vast database and product suite.

NuView will present information on how customers can use NuViewHR to make strategic staffing decisions, while leveraging the expertise of NuView Project Managers to provide real-time assistance in the execution of time critical HR initiatives.

When faced with a need to downsize, most organizations become reactionary, and are not in a mindset to make well thought-out decisions because they don't have the luxury of time on their side.

Organizations that need to quickly conduct a reduction in force risk making the wrong decisions. As a result, poor decisions can harm organizations in the long term and negatively effect their ability to capitalize on business, and future success, when an economic recovery does occur.

As such, NuView is taking a proactive approach, getting customers to do some RIF pre-planning before they are tasked with these tough staffing decisions.

This critical webinar will show NuViewHR customers a better approach to avoid making bad business decisions by leveraging key data points from its strategic modules, including Training Administration, Performance Management, Succession Management and Compensation Management modules.
